Error in *Code of Federal Regulations* (C. F. R.) Rule 1.8, 37 C. F. R. 1.8

The following C. F. R. Correction appeared in the *Federal Register*, at 56 FR 14648, on April 11, 1991:

In the July 1, 1990 revision of title 37 of the Code of Federal Regulations, on page 14, column two, § 1.8, paragraphs (a)(2)(xiv), (xv), and (xvi) were inadvertently placed after paragraph (b). These paragraphs should be correctly placed after paragraph (a)(2)(xiii) and before paragraph (b), in column one.

Rule 1.8 (37 C. F. R. § 1.8), which is entitled "Certificate of Mailing," sets out the conditions for the timely filing by first-class mail of papers utilizing the Certificate of Mailing procedure. Under Rule 1.8(a)(2), certain papers are excluded from the Certificate of Mailing procedure and will not be considered timely filed if received after the due date, unless deposited as Express Mail in compliance with Rule 1.10 (37 C. F. R. § 1.10). There are sixteen (16) exclusions, numbered 1.8(a)(2)(i) through (xvi). However, the list of exclusions, as printed in the July 1, 1990 revision of the C. F. R., is interrupted at 1.8(a)(2) (xiii) by paragraph 1.8(b), before it resumes with 1.8(a)(2)(xiv) through (xvi). Therefore, at first glance, it appears that there are only thirteen (13) exclusions. The exclusions for statements of use under Rule 2.88; extension requests under Rule 2.89 for filing a statement of use; and amendments to allege use in commerce under Rule 2.76 were inadvertently placed after paragraph (b).

Any appicant who relied to its detriment on the July 1, 1990 revision of the C. F. R. and utilized a Rule 1.8 Certificate of Mailing when filing either a statement of use or an extension request for filing a statement of use, resulting in abandonment of the application, may petition the Commissioner to revive its application. Further, any applicant who filed an amendment to allege use and relied to its detriment on the July 1, 1990 revision to the C. F. R., resulting in its amendment to allege use being considered untimely, may also petition the Commissioner for relief.

Pursuant to Rules 2.66 and 2.146(c), applicant must support its statement of detrimental reliance with an affidavit or declaration in accordance with Rule 2.20, averring that on a specific date between July 1, 1990 and the date of publication of this notice in the *Official Gazette*, petitioner filed one of the three relevant documents pursuant to Rule 1.8; relied on the 1990 revision of the C. F. R.; and believed that the relevant document was not excluded from filing under Rule 1.8 the petition fee is $100 per application. Rule 2.6(k).

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to libary, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
